Most children are enthralled by nature, specifically outer space and various weather conditions. Because not everyone lives in a geographic region that experiences tornadoes and hurricanes, picture books are a great way for children to learn about these events. A well illustrated picture book can help students understand how tornadoes and hurricanes are formed, and can help them overcome their fear of these extreme weather situations. When students who have been impacted firsthand by a major storm are able to see the explanation in a neutral, scientific way, it may provide a way for them to heal from their traumatic experiences.
