"Get In On The Three Trillion Dollar ?China Import Boom"

I've been in this business for ten years now and people ask me all the time what I do and how I do it. Even when I tell them a lot of times, they don't understand right away.

So I made finally designed a course for some friends and some colleagues, and I've decided to share it with you. ??

For the first time I'm going to reveal facts to you that have been kept secret in this industry for years. It's almost like a secret society or an "old boys" club and nobody tells anybody about what they do. I didn't see why.?

"Break Into The China Import Old Boys Club"

Well, after a period of time I made up a list of answers and I have shared them with a lot of friends. But I never actually made a course or anything that really tells the whole story until now. I don't think anybody has.?

"How I Became a China Importer"

Let me tell you a little bit more about me. I've been in the import business now for ten years. I started off

importing candles and home decorative items.

Eventually, I started importing pharmaceutical equipment and packaging equipment, even crowd control equipment and all sorts of different equipment and tools.

I've imported gift items; I've imported toys; I've imported just about anything that could be imported. That's the beauty of this business. ??

The thing that really attracted me to the import-export business is that I get bored easily. Maybe you do too; most entrepreneurs do. With the import business you never get bored. It changes everyday. If you want to do something different, just pick another line of business. It's really easy.?

"How I Flawlessly Import Millions In ?Products From China"

My partners and I have personally imported millions of dollars worth of merchandise. I'm not a guy that sells courses on how to import and makes a whole lot of money selling a course; I think that's a bunch of bull.

I actually do it everyday. I bring in ten to 12 containers of brand new products to the United States from China, Viet Nam, South America, Columbia, and other places like that every year; sometimes it's even more.?? My friends bring in hundreds and hundreds of containers, and I've asked them and quizzed them and learned everything that they do, too.

So I am pretty much of a repository of information and as far as I know I'm the only guy that's ever been willing to share.?

"How To Import Over 800,000 ?Products From China"

There are a lot of different models in importing. People import to be wholesalers, and that's the most common model; that's been going on for years. ??
