## The Gods Have Landed (SUNY Series in Religious Studies)

*This is a comprehensive account of the religious dimensions of the UFO/flying saucer experience.*

*The Gods Have Landed* is a comprehensive account of the religious dimension of the UFO/flying saucer experience. It examines the religious meanings attached to UFOs by the larger society as well as specific movements that claim inspiration from "Space Brothers" and other extra-terrestrial sources. It addresses the religious dimension of the phenomenon of alien abductions, particularly the impact of extra-terrestrial life on Christian theology.

Of special interest are the surveys of primary and secondary materials that make this book *the* indispensable reference on the subject.

"The whole idea of taking seriously, in a scholarly sense, a phenomenon that has a widespread following but has so far been largely scorned by serious scholars is quite appealing; it means that this book is breaking new and important ground." -- Timothy Miller, University of Kansas

"It provokes interesting intersections with ancient and modern religious ideas. Its strength is in taking the religious dimension of UFOs and abductees' experiences seriously. I particularly like its historical framework and the extensive bibliography." -- David Christopher Lane, Mount San Antonio College
