The Power of Digital Medicine (Guided Digital Medicine Series) Savely Yurkovsky

Unique, compelling, provocative, self-empowering, and timely!

Anthrax, smallpox, chemical weapons, SARS or nuclear disaster? This author says "No sweat," whether the conventional medical vaccines or antidotes exist or not and proposes his method that everyone, even a layperson, can master within minutes! More than that, this method is natural, drug free and supported by hundreds of scientific studies, ample medical experience and prominent scientists!

The author, Savely Yurkovsky, MD, cardiologist and Board Certified physician, internationally known expert in Integrative Medicine with special interest in toxicology and infectious diseases, reveals some of the best kept secrets in science:

Poisons that can kill you are often your best medicines.

Carcinogens can protect you against cancer.

Toxic chemicals and radiation can extend life span and enhance immunity.

Every poison known to Man: deadly bugs, nuclear radiation or chemical weapons can be turned into its own antidote within minutes or even seconds!

What makes the difference between a poison killing you or healing you, he shows, is its dose. Based on an obscure but well-proven phenomenon in toxicology – hormesis – and, the most mysterious medical specialty ever – homeopathy, this doctor has prescribed just the right (digital) medicine. This particular prescription is tailored for these turbulent times when terrorist attacks with weapons of mass destruction seem inevitable. Its principle can also be applied against any environmental toxin or "plague," as SARS.

The prescription reads: the very basis of homeopathy and hormesis – low doses or poisons are *c-u-r-a-t-i-v-e* and instructs how to make them yourself. This book is unique also because unlike others, it teaches the public how to address all of the main aspects of the problem and in a rather original way.

1. Prophylaxis before and
2. Therapeutic measures during or after the exposure and
3. When a person actually fell ill.

Homeopathic digital vaccines are based on the well-known principle in physics that every substance in nature (including means of mass destruction) represents matter-energy duality. The energetic aspect is more fundamental as it actually shapes and determines physical properties. Homeopathic remedies extract the energetic aspect of poisons which then spring our immune and detoxifying systems into action against the corresponding specific poisons. All you need is a sample of an agent, whether it be in the air, water, clothing or body fluids.

The book also edifies in the rich history of homeopathy in the U.S. and of the numerous celebrities around the world who have been its most ardent supporters. To name just a few: Prince Charles and Great Britain's Royal Family, Goethe, Charles Dickens, Pope Pius X, Mahatma Gandhi, Mother Teresa, Mark Twain, Daniel Webster, Thomas Edison, John D. Rockefeller, Sr., Hollywood's Jack Nicholson, Suzanne Somers and other stars.
