The survivors of the reality Show Dinosaur: 65 Million have made a home, and while they live among creatures that died 65 million years ago, they manage to build a life. Then, they make a terrible discovery: a hundred years before, in the 1940s, an airplane crashed in a cave system and those that survived the crash stayed, secured in a bunker, by the US military. Their goal? To bring back dinosaurs, but the lead scientist is none other than the "Angel of Death", Joseph Mengele, from Germany; he is the man who tortured thousands in scientific, medical experiments. He brings back the dinosaurs, but he does far worse as he tries to find "the perfect man". The Reality Show survivors and the survivors of the plane crash, as well as some hapless hikers who become trapped in the cave, will have to decide what is right and wrong, and what to do when a terrible secret is revealed. They have to change everything and survive the horrors in the land of dinosaurs.
