From Book 1: Nora Mitchell is a small-time cop on a small-time beat. The quiet, peaceful town of Marion hasn't seen real crime since Nora was a child, and she's beginning to grow tired of writing tickets to her neighbors and bringing in the occasional petty-thief... but that's all about to change.

When a woman is found murdered in her home, Nora gets much more than she bargained for as the ritualistic killing confounds the police and terrifies the town. The people are quiet... too quiet. Somebody knows something, but nobody will talk. With deceptively simple clues that seem to lead nowhere, the only evidence to be found does nothing but taunt the new detective. The worst part is, this is just the beginning.

The Sun Killer is a look into a world of violence and death where nothing is as it seems. The second series of author Diana Dwayne begins with a bang. The Sun Killer will keep you guessing, and you won't believe what comes next.
