Spring MVC Cookbook Alex Bretet

**Over 40 recipes for creating cloud-ready Java web applications with Spring MVC**

## About This Book

- Configure Spring MVC to build logic-less controllers that transparently support the most advanced web techniques
- Build an amazing social and financial application that applies microservices patterns on deployment, self-testability, interoperability, cloud architectures, and scalability
- Fast-paced, practical guide to learn how to set up Spring MVC to produce REST resources and templates as required by the latest front-end best practices

## Who This Book Is For

If you are an experienced Java developer, with prior experience in web technologies, and want to step up in your career and stay up-to-date or learn more about Spring Web scalability, this book is for you.

## What You Will Learn

- Structure your project with Maven and create self-tested, domain-specific deployable web archives
- Generate templates for a responsive and powerful frontend with AngularJS and Bootstrap
- Build a high performance stateless RESTful and hypermedia application to support your multiple customer experiences
- Authenticate over REST with a BASIC authentication scheme and OAuth2; handle roles and permissions
- Document and publish your REST API using Swagger and Swagger UI
- Scale your Spring web application
- Communicate through WebSocket and STOMP messages
- Provide support to your application and efficiently maintain its business features with a relevant test stack

## In Detail

Spring MVC is a lightweight application framework that comes with a great configuration by default. Being part of the Spring Framework, it naturally extended and supported it with an amazing set of recognizable annotations. External libraries can be plugged in and plugged out. It also possesses a request flow.

Complete support of REST web services makes the Spring architecture an extremely consistent choice to support your front-end needs and Internet transformations.

From the design of your Maven modules, you will achieve an Enterprise-standard for a stateless REST application based on Spring and Spring MVC with this book.

This guide is unique in its style as it features a massive overview of practical development techniques brought together from the Spring ecosystem, the new JEE standards, the JavaScript revolution and Internet of

Things.

You will begin with the very first steps of Spring MVC's product design. Focused on deployment, viability, and maintainability, you will learn the use of Eclipse, Maven, and Git. You will walk through the separation of concerns driven by the microservices principles. Using Bootstrap and AngularJS, you will develop a responsive front-end, capable of interacting autonomously with a REST API.

Later in the book, you will setup the Java Persistence API (JPA) within Spring; learn how to configure your Entities to reflect your domain needs, and discover Spring Data repositories. You will analyze how Spring MVC responds to complex HTTP requests. You will implement Hypermedia and HATEOAS to guide your customer's stateless conversation with the product and see how a messaging-service based on WebSocket can be configured. Finally you will learn how to set up and organize different levels of automated-tests, including logging and monitoring.

## Style and approach

A comprehensive, recipe-based guide to creating stunning Java apps with Spring MVC as a result of learning and implementing pro-level practices, techniques, and solutions.

### From reader reviews:

#### **Steven Resnick:**

What do you consider book? It is just for students since they're still students or it for all people in the world, exactly what the best subject for that? Simply you can be answered for that concern above. Every person has various personality and hobby for every other. Don't to be compelled someone or something that they don't would like do that. You must know how great and also important the book Spring MVC Cookbook. All type of book could you see on many resources. You can look for the internet sources or other social media.

#### **Karen Wilson:**

As people who live in typically the modest era should be update about what going on or info even knowledge to make these individuals keep up with the era which is always change and make progress. Some of you maybe may update themselves by examining books. It is a good choice to suit your needs but the problems coming to you is you don't know which you should start with. This Spring MVC Cookbook is our recommendation so you keep up with the world. Why, because this book serves what you want and need in this era.

#### **Nathan Weaver:**

In this time globalization it is important to someone to get information. The information will make you to definitely understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher in which print many kinds of book. The book that recommended to you is Spring MVC Cookbook this publication consist a lot of the information with the condition of this world now. That book was represented just how can the world has grown up. The terminology styles that writer use to explain it is easy to understand. The particular writer made some exploration when he makes this book. This is why this book ideal all of you.

#### **Elizabeth Villalobos:**

This Spring MVC Cookbook is brand new way for you who has interest to look for some information mainly because it relief your hunger associated with. Getting deeper you upon it getting knowledge more you know or you who still having tiny amount of digest in reading this Spring MVC Cookbook can be the light food in your case because the information inside this specific book is easy to get by anyone. These books build itself in the form that is certainly reachable by anyone, yeah I mean in the e-book application form. People who think that in book form make them feel tired even dizzy this book is the answer. So there isn't any in reading a book especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss this! Just read this e-book sort for your better life along with knowledge.
