Crashing Through: The Extraordinary True Story of the Man Who Dared to See Robert Kurson
Mike May spent his life crashing through. Blinded at age three, he defied expectations by breaking world records in downhill speed skiing, joining the CIA, and becoming a successful inventor, entrepreneur, and family man. He had never yearned for vision. Then, in 1999, a chance encounter brought startling news: a revolutionary stem cell transplant surgery could restore May's vision. It would allow him to drive, to read, to see his children's faces. But the procedure was filled with gambles, some of them deadly, others beyond May's wildest dreams. Beautifully written and thrillingly told, *Crashing Through* is a journey of suspense, daring, romance, and insight into the mysteries of vision and the brain. Robert Kurson gives us a fascinating account of one man's choice to explore what it means to see—and to truly live.
