Contemporary French Cultural Studies (Hodder Arnold Publication) William Kidd, Sian Reynolds

The study of French culture has long ceased to be purely centred on literature. Undergraduate French courses now embrace all forms of cultural production and consumption, and students need to have a broad knowledge of everything from day-time TV and the latest detective novels to debates about national identity and immigration policies.

This stimulating text is an introduction to the full range of contemporary French culture. Written by a group of leading academics both within and outside France, each chapter focuses on a topic from the French cultural scene today. Starting with an overview of resources for further information (both in print and online), the text discusses the varied forms of French cultural expression and looks critically at what 'Frenchness' itself means. The book also explores examples of cultural production ranging from sport, media and literature to theatre, cinema, festivals and music. An essential resource for students and scholars alike, this text provides detailed material and analysis, as well as a launch-pad for further study.
