The Second Angel Philip Kerr

**THE YEAR IS 2069, THE CENTENNIAL OF
THE APOLLO 11 MOON WALK.**

Earth has been irrevocably altered by global climatic changes and a worldwide plague of P2 -- a slow-acting, insidious virus. The Moon, now populated by penal colonies and sex hotels, also protects mankind's most sought-after and vital commodity -- virus-free blood -- in the most impregnable high-security installation ever engineered.

The First National Blood Bank is the brainchild of security firm Terotech's chief designer, Dana Dallas. But after Dallas' P2-infected daughter is denied uncontaminated blood, he is considered a security risk -- and expendable. With his life on the line, and his family caught in the cross fire, Dallas swears revenge on the elitist system and his own creation. Enlisting an eclectic crew of rebels, he devises a daring plan to infiltrate the lunar fortress -- one that will jeopardize everyone involved, and hinges on a very strange and unforeseen ally.

In *The Second Angel*, acclaimed novelist Philip Kerr convincingly mixes prophecy and science in a dark, dystopian, high-velocity thriller that rockets toward its explosive conclusion.
